

Theme Development Using Technology

1. Decide on themes for the year. Map out a timeline for all of them.
2. Make a file folder for each theme. Color code each folder.
3. Write a "Key Statement" for each theme, and staple this to the inside cover of each folder.
4. Get a box for each theme, and color code the box the same color as the file folder.
5. Write three goals on the "Key Statement" Page for the first theme.
 - a) Start materials lists for the theme.
 - b) Search textbooks for materials related to theme.
 - c) Ask librarian for a list of books on this topic.
 - d) Ask librarian for A/V holdings for this theme.
 - e) Search Regional Service Center catalog for materials.
 - f) Conduct a CD-ROM encyclopedia search for related materials.
 - g) Determine what computer programs may relate to this theme.
 - h) Search the Internet.
6. List related "Hands-On" Science activities.
7. List related Social Studies Cooperative Learning Activities.
8. List possible student presentations that use technology.
9. List possible Reading, Math, and Writing Center Actives.
10. List possible Writing Prompts
11. List possible Research topics for students' reports
12. Go to #5 above, and develop resource materials lists for the next theme.

Theme Development Using Technology

Theme Title:

Key Statement:

Goal 1: Students will be able to do...

Students will know...

Goal 2: Students will be able to do...

Students will know...

Goal 3: Students will be able to do...

Students will know...
